FARM SETU

PROBLEM STATEMENT

- **Farmer Suicides:** In 2022 alone, over 11,290 farmers and agricultural laborers died by suicide—one every hour.
- **Urgent Need for Change:** These are not just numbers but lives lost, families shattered, and a crisis that demands immediate action.

Underdeveloped Industries

Stagnant Local Economies

Low Farmer Income

Reliance on Middlemen

Youth Unemployment

Failed Small Businesses

OUR SOLUTION

CUSTOMER IDENTIFICATION

REVENUE STREAMS

OUR PLAN

Phase 1: Tomato Processing

Crop Focus: Tomatoes

Processing Model: AI-based sorting, grading, and canning

Projected Output: 100–200 tons/year

Revenue Goal: ₹1.5 – 3.0 Cr

Phase 4: Agritech Export Hub

Crop Focus: Fully automated, export-ready agritech hub

Processing Model: AI-driven supply chain for bulk international trade

Projected Output: 1500+ tons/year

Revenue Goal: ₹25+ Cr

Expansion Strategy

Phase 2: Multi-Crop Diversification

Crop Focus: Chilies, Mangoes, Bananas, Onions, Garlic, Millets

Processing Model: AI sorting, drying, and pulp processing

Projected Output: 300–500 tons/year

Revenue Goal: ₹4.5 – 7.5 Cr

Phase 3: AI-Driven Storage & Trading

Crop Focus: Large-scale multi-crop expansion

Processing Model: AI-powered cold storage and price optimization

Projected Output: 700–1000 tons/year

Revenue Goal: ₹10 – 15 Cr

Core Differentiators

AI cuts waste,
boosts income

Market Growth

Demand for
sustainable
products, govt.
funding

Initial Challenges

High setup costs,
strict policies, trust
building issues

Competitive Landscape

Established players,
supply chain risks

MARKETING STRATEGY

TECHNICAL VIABILITY
